Topic

211 OpenType fonts available with Creative Suite

Thomas Phinney - 08:52pm Oct 6, 2003 PST

(This message last edited 17 Jan 2004 to clarify details and remove one font from the list.)

Bonus fonts bundled only with the Creative Suite - and not with the individual programs sold separately - are the *entire* Warnock Pro Opticals family. Additionally, the entire Briosio Pro opticals family is offered as an online registration incentive for North American customers, as one of several choices of bonus goodies. If you get both, that's an extra 74 fonts! If you buy the applications separately, you still get 137 fonts, mind you.

If one buys single applications, they come with fewer fonts. To check out the differences, see the comparison here: "[Creative Suite vs. InDesign CS vs. Illustrator CS bundled fonts](#)"

Below are the fonts you get in both "standard" and "premium" versions of the Creative Suite (the professional edition does not add more fonts). All of this, including the registration bonus, applies to educational purchasers as well as the regular retail versions of the applications.

Families represented:

(scroll down further if you want to see the list of individual fonts)

- Adobe Caslon Pro
- Adobe Ming Std
- Adobe Myungjo Std
- Adobe Garamond Pro
- Adobe Jenson Pro
- Bernhard Modern Std
- Birch Std

gastroboy - 11:04am Aug 16, 04 PST (#139 of 140)

Do you need to install them separately, because I don't see some of these oin my Type list?
